

# MapRoulette

# Microtasks for OSM

Martijn van Exel  
OSMF Board Meeting February 2024

# Introduction

- Web Application ([MapRoulette](#)) where you get **small mapping tasks** like tag fixes (outdated or wrong tags) or geometry fixes (sharp angles, disconnected features)
- Tasks can usually be **completed within a few minutes**
- **Anyone can participate** with an OSM account
- Used by Mapping Parties and Events, Teams and Organizations, and Individual Mappers
- Tasks are **organized in Challenges**
- Anyone can create Challenges using Overpass or GeoJSON
- OpenStreetMap U.S. [Charter Project](#)

### Spammy business descriptions 4

Friendly\_Ghost's Project

#### INSTRUCTIONS

Tags that could be considered spam, like **image** tags that refer to company logos and **description** tags that are just corporate spam, can usually be removed without any problem.

Be sure to check the tags for relevant information that can be tagged in a different way, like contact details or main features of a business.

In many cases information of the brand can be added or retagged under the brand+\* taocoina scheme.

# Some Notable Features

- Multilingual (20+ languages already)
- Interactive (“Wizard”) Challenge Creation
- Review Tasks
- Projects
- Leaderboards 🚧
- “Quick Fix” (editorless) Challenges
- Open API
- Extensive Documentation
- \*NEW\* Built-in Editor
- Of Course It’s [Open Source](#)

# How You Can Help

- Use MapRoulette to solve some tasks and improve OSM :-)
- Help [Translate](#) into your Language (>20 already)
- Contribute to Development
- \*COMING SOON\* Help Translate the Documentation
- If Your Organization uses MapRoulette, please Donate

**Thanks!**
